

Pacific County Weekly Update

1/13/2021

Meeting Guidelines

- This will be a moderated forum. We ask that everyone participating be respectful and stay on topic. The moderator may select questions as time permits and in order to keep the discussion on topic and appropriate.
- This meeting is being recorded and will be posted on health dept social media and at www.pacificcountycovid19.com
- If you'd like to comment or ask a question, enter your comment in the comment box, or enter your name and you will be called on (as time permits).
- Please try to limit comments to 3 minutes or less.

Agenda & Topics

1. Introductions & meeting guidelines
2. Local data update and Definitions
3. Vaccine updates
4. Healthy Washington- Roadmap to Recovery
5. Testing options
6. WA Notify
7. Paycheck Protection Program- Round 2
8. Question & Answer and Public Comment

COVID-19 Definitions

Our **COVID-19 case count** includes **confirmed** and **probable cases**.

Confirmed:

- Meets *confirmatory laboratory evidence*: SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test.

Probable:

- Meets clinical criteria (symptoms) AND epidemiologic evidence (exposure) with no confirmatory laboratory testing performed for COVID-19.
- Meets presumptive (antigen, antibody) laboratory evidence AND either clinical criteria OR epidemiologic evidence.
- Meets vital records criteria with no confirmatory laboratory testing performed for COVID-19.

Active: Monitored by Public Health. Timeline varies, usually no more than 14 days.

Closed: Discontinuation of isolation. No longer monitored by Public Health.

Recovered: No standardized definition. Difficult to determine, but most assume an individual has returned to baseline health prior to COVID-19. Not tracked by Public Health.

Quarantine: Used to keep someone who might have been exposed to COVID-19 away from others to limit the disease spread.

Isolation: Separate people infected with the virus (those who are sick with COVID-19 and those with no symptoms) from people who are not infected.

Pacific County Weekly COVID 19 Data

Pacific County Case Data Summary	12/23/2020	12/30/2020	1/13/2021
Cases (Total)	560	576	640
<i>-Active Cases (currently monitored by Public Health)</i>	33	29	26
<i>-Closed Cases (no longer monitored by Public Health)</i>	525	547	614
<i>-Confirmed Cases (PCR positive)</i>	379	396	452
<i>-Probable cases (Rapid positive)</i>	181	180	188
Hospitalizations (to date)	17	17	21
Deaths	4	5	7
<i>-Percent Deaths (deaths/cases)</i>	.7%	.9%	1%
Cases per 100k per 14 days (rolling)- includes PCR positives and Rapid positives	263.4	157.1	240.3
Test Positivity		16.5%	27.7%

Data transition to include "Probable" as "COVID-19 Case" and to calculate average case rate per 100,000/14 days. No longer require PCR confirmation effective 11/25/20.

Bay Center	98527	6
Chinook	98614	10
Ilwaco	98624	30
Long Beach	98631	59
Lebam	98554	Less than 5
Naselle	98638	28
Nahcotta	98637	Less than 5
Menlo	98561	Less than 5
Ocean Park	98640	42
Oysterville	98641	Less than 5
Seaview	98644	20
Raymond	98577	285
South Bend	98586	147
Tokeland	98590	Less than 5
Incomplete/unassigned		6

Pacific County Cases by Zip Code

- Confirmed case count is specific to each zip code.
- Represents permanent residence of Pacific County COVID-19 cases.
- Not a representation of where COVID-19 exposure or transmission occurred.

Updated 1/13/2021

Pacific County Average Case Rate (100k/population/14 days)

Pacific County Case Data by Age Range

Age range	# of cases by age (cumulative)
0-9	51
10-19	91
20-29	67
30-39	116
40-49	97
50-59	86
60-69	64
70+	67
data missing	1

Updated 1/13/2021

Who's currently eligible for the vaccine?

As of today (1/13/21), only those in priority group 1a are eligible.

1a priority group includes:

- Residents and staff of nursing homes, assisted living facilities, and other community-based, congregate living settings where most individuals over 65 years of age are receiving care, supervision, or assistance
- Healthcare personnel - including first responders - who have direct patient contact (within 6 feet) and are unable to telework

If you are part of 1a priority group, call Pacific County Emergency Operations Center to make an appointment.

(360) 875-9407 or (360) 642-9407

WASHINGTON'S COVID-19 VACCINE PHASES

Phase 1 Estimated Timeline (Tiers A and B)

Find out if it's your turn at [FindYourPhaseWA.org](https://www.findyourphasewa.org)

WA PHASE FINDER- Will be live 1/18/2021

Pacific County Local Vaccine Distribution Plan (1a)

- Ocean Beach Hospital is conducting vaccine clinics using Pfizer vaccine for south county 1a providers by appointment.
- Pacific County Health Dept in partnership with Willapa Harbor Hospital is holding drive through clinics using Moderna Vaccine for north county 1a priority group by appointment

Total 1a vaccinated (as of 1/13/21): 513 have received their first dose, 147 have received a second dose

A1
A2

- High-risk healthcare workers in health care settings
- High-risk first responders
- Long-term care facility residents
- All other workers at risk in health care settings

Phase B1, B2, B3, & B4 Timeline and Plan

- The county has to wait for the “green light” from the state before we can move to priority group B
- Timeline is dependent on vaccine supply. The county cannot move forward with future phases without state approval
- **Estimated** timeline is:
 - B1- all people over 70 and those over 50 living in multigeneration households: *estimated end of January 2021*
 - B2- high risk critical workers over 50: *estimate February 2021*
 - B3- people over 16 with 2 or more underlying conditions: *estimated March 2021*
 - B4- high risk critical workers under age 50, and people, staff, & volunteers in congregate settings: *estimated April 2021*

What is the local plan to vaccinate 1b and future phases?

Pacific County is planning a collaborative, multi-pronged approach to providing vaccines for phase 1b and future phases. This plan is dependent upon vaccine supply and will be provided for those in a currently authorized priority group as follows:

- Private healthcare providers- including healthcare providers will provide vaccine to established patients by appointment for those in a currently approved phase. (not yet available)
- Pharmacies- some pharmacies will provide vaccines by appointment
- Mass drive thru vaccine clinics- by appointment for those in a currently approved phase. Conducted by OBH w/ support from Health Dept in South County, and by Health Dept with support from WHH in north county.
- On site vaccine clinics- vaccines will be provided on site for some larger employers who have a large number of workers in a currently eligible phase.
- In all cases, and regardless of provider- appointments will only be made for those in a currently approved phase (as of 1/13/21- that only includes 1a- healthcare workers, EMS, and Long Term Care)

Which vaccine will I get?

VACCINE NAME: BNT162b2

EFFICACY: 95%

DOSE: **2 doses, 3 weeks apart**

TYPE: **Muscle injection**

STORAGE: **Freezer storage only at -94°F (-70°C)**

FACT SHEET:

<https://www.fda.gov/media/144414/download>

VACCINE NAME: mRNA-1273

EFFICACY: 94.5%

DOSE: **2 doses, 4 weeks apart**

TYPE: **Muscle injection**

STORAGE: **30 days with refrigeration, 6 months at -4°F (-20°C)**

FACT SHEET:

<https://www.fda.gov/media/144638/download>

Sign up to get updates regarding the COVID vaccine!

Those who sign up at the link below will receive updates regarding the COVID vaccine directly from the Health Dept. Updates will include:

- ✓ Information about priority groups and timelines
- ✓ Information about who is currently eligible for the vaccine
- ✓ How to schedule an appointment (once eligible)
- ✓ Other information about vaccine distribution in Pacific County

Please note- this form does NOT sign you up for a vaccine appointment. It DOES sign you up to receive email updates from the county with information about local distribution plans in Pacific County

To sign up, click here: <https://forms.gle/U3xezrkeVtfF6yzx7>

Those without internet access or an email address can call:

- Long Beach City Hall, 360-642-4421
- Raymond City Hall, 360-942-4100

Healthy Washington- Roadmap to Recovery

Effective January 11, 2021,

Washington has adopted a regional approach for the phased recovery plan. All regions are starting at phase 1 (different than previous phase 1).

- ✓ Regions must meet 3 of 4 metrics to move to phase 2
- ✓ Metrics updated each week on Friday

Healthy Washington- Roadmap to Recovery Regions

*Pacific County is in the WEST Region along with Grays Harbor, Thurston, and Lewis Counties

Metric #1- Trend in 14-day rate of new COVID-19 cases per 100k pop.

- Describes whether virus transmission is increasing, decreasing, or staying the same (referred to here as “flattening”).
- A case is defined as an individual with a molecular or antigen test that is positive for COVID-19.
- Cases are assigned to the date a specimen was collected for testing, called the specimen collection date.
- This metric is calculated by dividing the number of cases with a specimen collection date in a 14-day period by the population in the region and multiplying by 100,000.
- The percent change is calculated by subtracting the rate during the most recent time period from the preceding time period, dividing by the rate in the preceding time period, and multiplying by 100.
- The direction of the trend is defined by thresholds. The thresholds for this metric are:
 - Decrease: -10% or more
 - Flat: between 0% to less than -10%
 - Increase: More than 0%
- Metrics are calculated using the most recent complete data for two Sunday–Saturday weeks

Metric #2- Rate of new COVID hospital admissions per 100k pop.

- Describes the impact on healthcare systems and whether the number of hospital admissions is increasing, decreasing, or flattening.
- A hospital admission is defined as an individual with confirmed COVID-19 infection who was admitted to the hospital.
- A hospital admission is assigned to the region of the hospital, not the region in which the individual lives. About 90% or more of Washington residents with COVID-19 in November 2020 were determined to reside in the same region as the hospital.
- This metric is calculated by dividing the number of COVID-19 hospital admissions with an admission date in a 14-day period by the population in the region and multiplying by 100,000. The percent change is calculated by subtracting the rate during the most recent time period from the preceding time period, dividing by the rate in the preceding time period, and multiplying by 100.
- The direction of the trend is defined by thresholds. The thresholds for this metric are:
 - Decrease: -10% or more
 - Flat: between 0% to less than -10%
 - Increase: More than 0% Data from WA HEALTH are used for this metric. Metrics are calculated using the most recent complete data for two Sunday–Saturday weeks.

Metric #3- Trend in 14-day rate of new COVID-19 cases per 100k pop.

- Describes the capacity of the healthcare system to respond to the pandemic by indicating how many beds are currently occupied by critically ill patients and thus not available to treat additional patients who may need critical care.
- ICU occupancy is defined as the number of staffed adult ICU beds occupied in acute care hospitals. ICU occupancy includes all patients in the ICU, not only patients with COVID-19.
- This metric is calculated by dividing the number of staffed adult ICU beds occupied each day by the total number of staffed adult ICU beds available and multiplying by 100. A 7-day average is calculated by averaging the percent over the most recent 7 days.
- The thresholds for this metric are:
 - Low: Less than 90%
 - High: 90% or moreData from WA HEALTH are used for this metric.
- Metrics are calculated using the most recent complete data for a single Sunday–Saturday week.

Metric #4- 7-day percent positive of COVID-19 tests

- Describes how widespread infections are and if sufficient testing is occurring.
- A test is defined as a molecular test, including PCR, performed on an individual who has not previously tested positive for COVID-19 by molecular testing.
- Tests are assigned to the specimen collection date. Antigen and antibody tests are not included in this metric.
- This metric is calculated by dividing the number of positive COVID-19 tests by the total number of tests performed in a 7-day period and multiplying by 100. The thresholds for this metric are:
 - Low: Less than 10%
 - High: 10% or more
 - Data from WDRS and the DOH negative lab dataset are used for this metric.
- Metrics are calculated using the most recent complete data for a single Sun-Sat week

Pacific County Testing Options, updated 12/30/2020

Provider	Location	Schedule	How to register	Other information
Willapa Harbor Hospital	800 Alder Street South Bend	Mon-Thurs 12:00-2:00pm	No appointment necessary, limited to first 50 cars	Priority to Pacific County residents
Peninsula Pharmacy	117 Spruce St Ilwaco	Tues/Thurs 9:00am-12:00pm By appointment	www.covidtest360.com 360-244-0606	By appt. Not physically located at pharmacy
Ocean Beach Hospital (Established patients)	174 First Ave N. Ilwaco	Established patients by appointment	Call provider to make appt. By referral from PCHHS for urgent cases	PCR, Symptomatic, Close Contact Provider Decision, by referral
Family Health Center (Established patients)	21610 Pacific Way Ocean Park	Established patients by appointment	Call 360-665-3000	PCR, Symptomatic, Close Contact, provider discretion
Valley View (Centralia)	1800 Cooks Hill Rd. Suite G Centralia,	By appt	360-736-3042	PCR, Symptomatic, Close Contacts
McCleary Health Mart Pharmacy	115 W Simpson Ave McCleary	TBD	Register online at: www.doineedacovid19test.com	PCR
Elma/East County Pharmacy	221 West Main St Elma, WA	TBD	Register online at: www.doineedacovid19test.com	PCR
Shoalwater Medical Clinic (Established patients)	2373 Tokeland Rd Tokeland, WA	Call for appt.	1-800-841-2244	For established patients

WA NOTIFY

Washington Exposure Notifications (also known as WA Notify) is a new tool that works through smartphones, without sharing any personal information, to alert users if they may have been exposed to COVID-19. It is completely private, and doesn't know or track who you are or where you go.

How do I add WA Notify to my Phone?

On an iPhone, enable Exposure Notifications in Settings:

- Go to Settings
- Scroll down to Exposure Notifications
- Click "Turn On Exposure Notifications"
- Select United States
- Select Washington

On an Android phone:

- Go to the [Google Play Store](https://play.google.com/store/apps/details?id=com.wanotify)
- Download the WA Notify app

Learn more at: <https://www.doh.wa.gov/Emergencies/COVID19/WANotify>

Paycheck Protection Program- Round 2

Who is eligible to receive a PPP Loan?

Only certain businesses are eligible to receive a PPP loan, and these specifications are different for first-time loan recipients and second-draw recipients.

To be eligible for a second-draw PPP loan:

- Your business has less than 300 full-time, part-time, or seasonal employees; if you have multiple locations, you may not have more than 300 employees per location.
- You are able to demonstrate a revenue reduction of at least 25% in the first, second, or third quarter of 2020 (when compared with the same quarter in 2019).
- You have used or will use the full amount of the first-draw PPP.
- Your business was operational before February 15, 2020 and remains operational.

Businesses eligible for first- and second-draw PPP loans include:

- Sole proprietors
- Independent contractors
- Self-employed individuals
- Certain non-profits (the new bill has expanded eligible businesses to include certain [501\(c\)\(6\) non-profit organizations](#))
- Seasonal employers; the new bill has clarified the definition of these to be businesses that operate no more than seven months within a year or earn no more than a third of gross receipts within a six-month period
- Faith-based organizations that have less than 150 employees
- Housing cooperatives that employ less than 300 people
