Statewide SnapshotWA State Total Positive Cases as of 01/26/2021: **303,482** WA Total Hospitalizations: **17,354**WA Total Deaths: **4,167** Neighboring Counties: Wahkiakum County **65** cases, Grays Harbor **2,867** cases, Lewis County **3,178** cases, Clatsop County **734** cases. Clatsop County remains in Oregon's "Extreme Risk" level.

Pacific County Weekly COVID 19 Data

Pacific County Case Data Summary	1/13/2021	1/20/2021	1/27/2021
Cases (Total)	640	669	688
-Active Cases (currently monitored by Public Health)	26	41	32
-Closed Cases (no longer monitored by Public Health)	614	628	656
-Confirmed Cases (PCR positive)	452	478	491
-Probable cases (Rapid positive)	188	191	197
Hospitalizations (to date)	21	21	22
Deaths	7	8	9
-Percent Deaths (deaths/cases)	1%	1.1%	1.3%
Cases per 100k per 14 days (rolling)- includes PCR positives and Rapid positives	240.3	231.1	217.2

Data transition to include "Probable" as "COVID-19 Case" and to calculate average case rate per 100,000/14 days. No longer require PCR confirmation effective 11/25/20.

Waitlist for Phase 1A and Phase 1B, Tier 1 Now Open

Pacific County Health and Human Services is taking names and phone numbers of people to be added to the waitlist for future vaccine clinics. Vaccine appointments will be made from this list. The date of future vaccine clinics is dependent on vaccine supplies received from the State of Washington.

- By filling out the form below, you will be added to the waitlist.
- People will be scheduled for appointments in the order they sign up on the list
- When Pacific County receives vaccine from the state. People on the list will be called to set an appointment.
- There is no need to call us.
- **This form is new and in addition to any other form you may have filled out for the county or state (such as Phase Finder).**
- Please be patient, we are working to get EVERYONE vaccinated as quickly and efficiently as possible.

If you live in North Pacific County (Bay Center and north), please click on the North County link below. If you live in South Pacific County (all areas south of Bay Center), click on the South County link below. *If you need help filling out the form, you can call us at (360) 875-9407 or (360) 642-9407.*

Four Mass Vaccination Sites Open Statewide this Week

The Washington State Department of Health (DOH), with assistance from the Washington National Guard and local and private sector partners, is launching four mass vaccination sites throughout the state this week. [Announced by Gov. Jay Inslee](#) on Jan. 18, the sites are located in Kennewick, Ridgefield, Spokane and Wenatchee. They will be open by appointment only to people who are eligible for the vaccine under [Phase 1A or 1B-1](#). Read the full news release [here](#).

First Cases of U.K. COVID-19 Strain found in Two Counties in Washington state

The UW Medicine Virology Lab detected two cases of the COVID-19 variant, known as B.1.1.7 or SARS-CoV-2 VOC 202012/01 in specimens collected from two Snohomish County residents. Although these are the first detected B.1.1.7 variants in the state, it is likely that other cases exist and will come to light through ongoing surveillance. The variant was also discovered in Pierce County. Read the full news release [here](#).

New “Roadmap to Recovery” Dashboard Now Live; all Regions to Remain in Phase 1 for Now
DOH, in partnership with [Microsoft AI for Health](#), has launched the new [Roadmap to Recovery dashboard](#) that provides a detailed overview of the metrics used for measuring regional progress. The metrics and corresponding thresholds help determine if it is safe for a region to enter into a new phase of reopening. Read the full news release [here](#).

Update to K-12 Schools Guidance

DOH's [K-12 Schools Guidance](#) has been updated with the addition of requirements for performing arts in the K-12 setting. The guidance is modeled after the National Federation of High School's [International Coalition of Performing Arts Aerosol Study Report 3](#) and also follows many of the recommendations set forth in Governor Inslee's [Roadmap to Recovery performing arts guidance](#).

Department of Health Welcomes New Leader of Public-Private Vaccine Effort

The Washington State Department of Health (DOH) announced the appointment of Mr. Dan Laster as Director of the COVID-19 Vaccine Action Command and Coordination System (VACCS) Center to create public-private partnerships. In this role, Mr. Laster will tap into the unique capabilities and resources of the private sector to support vaccination efforts across the state of Washington. Read the full news release [here](#).

Biden Administration Unveils National Vaccine Strategy

On January 15, President Biden and his administration unveiled the outline for a national COVID-19 vaccination strategy, which seeks to address challenges faced by local governments in distributing the vaccine. This five-part plan outlines key actions that the Biden Administration will work to take at the federal level to aid the efficient and equitable vaccination of U.S. residents. Such actions include:

1. *Increasing the number of vaccinations* by encouraging states to open vaccine availability to other priority groups and ensuring an equitable distribution by targeting resources to hard-hit, marginalized, and medically underserved communities.
2. *Leveraging federal agency resources to create more local vaccination sites*, through the development of mobile vaccination clinics that will reach underserved urban areas and rural communities; and the formation of partnerships with pharmacies and Federally Qualified Health Centers (FQHCs).
3. *Increasing the supply of COVID-19 vaccines* to be deployed as quickly as possible through the enactment of the Defense Production Act.
4. *Mobilizing additional personnel* to get more shots in arms with a commitment to invest in 100,000 new public health workers that will work in their communities and provide vaccine outreach and contact tracing services, as well as long term support to address ongoing threats to public health.
5. *Launching a public education campaign* to improve vaccine confidence in the general public.

The announcement of this plan followed the release of President Biden's \$2 trillion coronavirus rescue package, the [American Rescue Plan](#), which proposed the addition of \$20 billion in funds to state, local and tribal governments for vaccine deployment. The proposed funding would be in addition to the \$8.75 billion in vaccine distribution funds recently allocated by Congress in the latest [COVID-19 funding package](#).

Pacific County Case Data by Age Range

Age range	# of cases by age (cumulative)
0-9	54
10-19	97
20-29	77
30-39	120
40-49	104
50-59	92
