9 Additional Positive COVID-19 Cases in Pacific County

Since our last data update on January 27th, 9 additional Pacific County residents have tested positive for COVID 19 bringing the total case count since the beginning of the pandemic to 697 with 30 cases currently active. Of those 697 cases, 503 cases are considered confirmed which means they tested positive on a PCR test, and 194 are probable which means they tested positive on a rapid antigen test. The current case rate per 100k over 14 days is 198.7. Active cases are currently spread throughout all parts of Pacific County.

We continue to strongly encourage the public to limit non-essential travel, maintain social distancing of at least six feet between persons, and practice personal protective measures to include: correctly wearing a mask/face covering in public, washing hands often with soapy water for at least 20 seconds, and avoid touching your face. For up to date information and guidance, please monitor the Pacific County Health and Human Services Facebook page or visit: www.pacificcountycovid19.com. The next case rate update will be released on Monday, February 1, 2021.
