15 Additional Positive Cases

Pacific County Health Department has received notice of 15 additional probable and confirmed COVID cases since our last update on 12/2. Probable cases include those who tested positive on a rapid test and confirmed cases include those who tested positive on a PCR test. These new cases bring the total number of cases since the start of the pandemic to 470. Of those, 53 are currently being monitored by public health and one is hospitalized. We would like to thank the public for their continued diligence in practicing personal protective measures including wearing a mask when in public, maintaining physical distance of 6 feet, increased hand washing, and limiting social gatherings. We'd also like to encourage the public to get tested if they are symptomatic, or if they have been identified as a close contact

All correspondence received by Pacific County may be subject to public disclosure under Chapter 42.56 RCW
