Three Additional Positive COVID-19 Cases in Pacific County

Pacific County Health and Human Services received notice of three positive cases of COVID-19 in Pacific County. These cases are in addition to the 88 previously reported cases for a total of 91 cases. There are currently seven active cases being monitored by public health nurses. Five cases are confirmed and two cases are probable.

All three cases are between 70-80 years old and are isolating at home. Case investigations and contact tracing are on-going, but these cases are the result of two separate and small social gatherings (less than 10 individuals). Two cases are in the same household and not connected to the three case at this time.

Pacific County Health and Human Services strongly encourages the public to limit non-essential travel, maintain social distancing of at least six feet between persons, and practice personal protective measures to include: correctly wearing a mask/face covering in public, washing hands often with soapy water for at least 20 seconds, and avoid touching your face. For up to date information and guidance, please monitor the Pacific County Health and Human Services Facebook page or visit: www.pacificcountycovid19.com.
