Pacific County Monthly Update

6/3/2021

Meeting Guidelines

- This will be a moderated forum. We ask that everyone participating be respectful and stay on topic. The moderator may select questions as time permits and in order to keep the discussion on topic and appropriate.
- This meeting is being recorded and will be posted on health dept social media and at www.pacificcountycovid19.com
- If you'd like to comment or ask a question, enter your comment in the comment box, or enter your name and you will be called on (as time permits).
- Please try to limit comments to 3 minutes or less.

Agenda & Topics

1. Introductions & meeting guidelines
2. Local data update and definitions
3. COVID Variant Information
4. Vaccine updates
5. Healthy Washington- Roadmap to Recovery
6. Testing options
7. Resources
8. Question & Answer and Public Comment

Pacific County Weekly COVID 19 Data

Pacific County Case Data Summary	5/19/2021	5/26/2021	6/2/2021
Cases (Total)	1024	1044	1047
Active cases (currently monitored by Public Health)	30	27	15
New cases over last 14 days	47	31	20
Number of cases since January 1, 2021 among fully vaccinated people	9	13	15
Total number of cases since January 1, 2021	405	422	428
Proportion of total cases since January 1, 2021 that were among fully vaccinated people	2%	3%	4%
Hospitalizations (Total)	40	41	43
New hospitalizations over last 7 days	1	1	2
Deaths (Total)	12	12	12
Cases per 100k per 14 days	217.2	143.3	92.4

Bay Center	98527	10
Chinook	98614	16
Ilwaco	98624	38
Long Beach	98631	93
Lebam	98554	Less than 5
Naselle	98638	65
Nahcotta	98637	Less than 5
Menlo	98561	Less than 5
Ocean Park	98640	62
Oysterville	98641	Less than 5
Seaview	98644	23
Raymond	98577	479
South Bend	98586	221
Tokeland	98590	Less than 5
Grayland	98547	24
Missing data		7

Pacific County Cases by Zip Code

- Confirmed case count is specific to each zip code.
- Represents permanent residence of Pacific County COVID-19 cases.
- Not a representation of where COVID-19 exposure or transmission occurred.

Updated 6/2/2021

Pacific County Average Case Rate (100k/population/14 days)

Updated 6/2/2021

Pacific County Vaccine Data

Pacific County Case Data Summary	5/15/2021	5/24/2021	6/2/2021
Doses given (cumulative total)	19,917	20,546	21,430
<i>% of total population initiating vaccination</i>	43.02%	44.24%	45.91%
<i>% of total population fully vaccinated</i>	37.61%	38.90%	40.43%
<i>% of 16+ initiating vaccination</i>	50.53%	51.97%	53.93%
<i>% of 16+ fully vaccinated</i>	44.17%	45.70%	47.49%

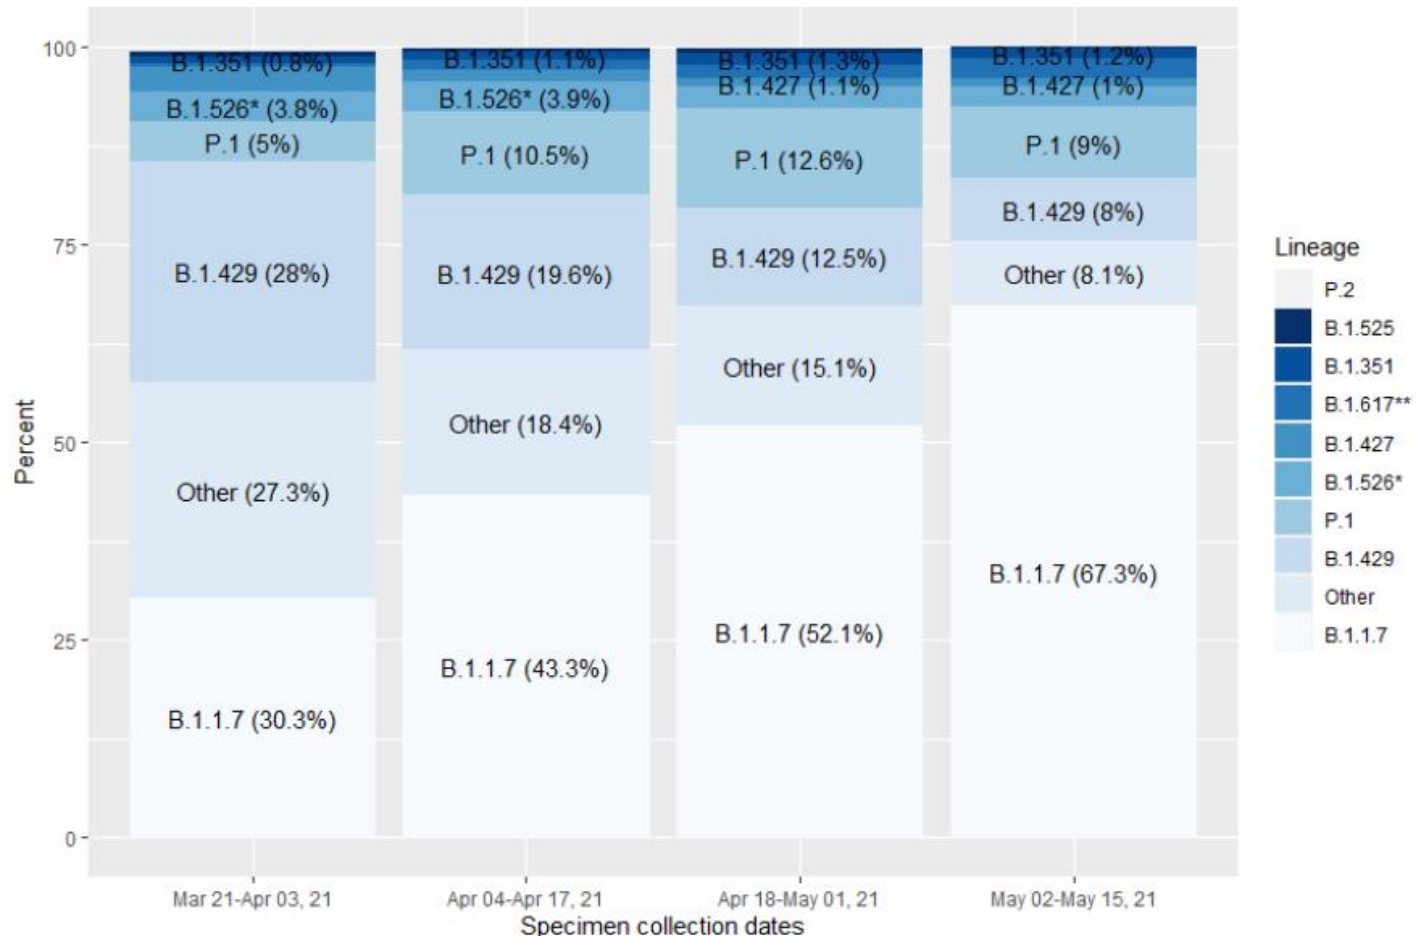

Updated 6/2/2021

Variants

- New naming structure
 - The World Health Organization is changing how they name COVID-19 variants.
 - Variants will be assigned different letters of the Greek alphabet.
- The Alpha (B.1.1.7, UK), Epsilon (B.1.427/B.1.429, California), and Gamma variants (P.1, Brazil) have all been found in samples taken from positive cases in Pacific County.
- 21,104 (5.2%) specimens from COVID-19 cases in Washington state have been sequenced since January 2020.

SARS-CoV-2 Lineages Circulating in Washington State,

June 2, 2021

*Includes B.1.526 and B.1.526.1 **Includes B.1.617, B.1.617.1, B.1.617.2, and B.1.617.3

The chart above shows the biweekly proportions of the most common SARS-CoV-2 lineages circulating in Washington grouped in two-week intervals. Proportions are calculated using data which are subject to change over time and will be updated as more data becomes available.

Breakthrough Cases

Vaccine breakthrough occurs when someone gets infected with an organism they are fully vaccinated against. For the COVID-19 vaccine, this means someone tests positive for SARS-CoV-2 two weeks or more after receiving the full series of an authorized COVID-19 vaccine. Since millions of people in the United States are getting vaccinated, we expect to see some breakthrough disease.

Washington State SARS-CoV-2 breakthrough cases by age group

Age group (years)	Number of cases	Percent of cases
≤ 19	12	1%
20-34	272	17%
35-49	411	26%
50-64	380	24%
65-79	326	21%
80+	174	11%
Total	1575	100%

- Initially, most reported breakthrough cases occurred in adults 65 years of age and older, who were prioritized for vaccination. As younger age groups became eligible for vaccines, the distribution of breakthrough cases also changed to include younger age groups.

Washington State SARS-CoV-2 breakthrough cases by sex

Sex	Number of cases	Percent of cases
Female	946	60%
Male	582	37%
Unknown	47	3%
Total	1575	100%

- A higher percentage of women in Washington State have chosen to get vaccinated than have men; therefore, more women are at risk for vaccine breakthrough than men. This difference is reflected in the table above.

Breakthrough cases cont'd

Washington State SARS-CoV-2 breakthrough cases by symptoms and hospitalization

	Symptomatic		Hospitalized	
	Number of cases	Percent of cases	Number of cases	Percent of cases
Yes	928	75%	108	9%
No	305	25%	1046	91%

COVID-19 deaths among SARS-CoV-2 breakthrough cases in Washington

Among breakthrough cases from this surveillance period **27** have died of COVID-related illness.

- The age range of deceased cases was 48 - 97 years (median 86 years).
- Among the **27** deceased:
 - **19** people were known to have one or more underlying conditions. Information was not available for **8** of the people who died.
 - **17** people were hospitalized, and **8** were not. Information was not available for **2** of the people who died.
 - **12** were known to be associated with a long-term care facility. The remaining **15** people were either not associated with a long-term care facility or information was not available regarding facilities.

Choosing Safer Activities

Accessible link: <https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/participate-in-activities.html>

Unvaccinated People		Examples of Activities	Fully Vaccinated People
		Outdoor	
Safest		Walk, run, wheelchair roll, or bike outdoors with members of your household	
		Attend a small, outdoor gathering with fully vaccinated family and friends	
		Attend a small, outdoor gathering with fully vaccinated and unvaccinated people, particularly in areas of substantial to high transmission	
Less Safe		Dine at an outdoor restaurant with friends from multiple households	
Least Safe		Attend a crowded, outdoor event, like a live performance, parade, or sports event	
		Indoor	
Less Safe		Visit a barber or hair salon	
		Go to an uncrowded, indoor shopping center or museum	
		Attend a small, indoor gathering of fully vaccinated and unvaccinated people from multiple households	
Least Safe		Go to an indoor movie theater	
		Attend a full-capacity worship service	
		Sing in an indoor chorus	
		Eat at an indoor restaurant or bar	
		Participate in an indoor, high intensity exercise class	

Get a COVID-19 vaccine

Prevention measures not needed

Take prevention measures

Wear a mask, stay 6 feet apart, and wash your hands.

- Safety levels assume the recommended prevention measures are followed, both by the individual and the venue (if applicable).
- CDC cannot provide the specific risk level for every activity in every community. It is important to consider your own personal situation and the risk to you, your family, and your community before venturing out.

New masking guidelines

Fully vaccinated people can resume activities without wearing masks or physically distancing, except where required by federal, state, local, tribal, or territorial laws, rules and regulations, including local business and workplace guidance.

cdc.gov/coronavirus

CS3241.53K

Masks in workplaces

- Fully vaccinated employees do not have to wear a mask or socially distance at work, **unless their employer still requires it.**
- Before ending mask and social distance requirements, **employers must confirm workers are fully vaccinated** —by having the worker either sign a document attesting to their status or provide proof of vaccination.
- Employers must be able to **demonstrate they have verified** vaccination status for workers who are not masked or physically distanced. Verifications methods may include:
 - Creating a log of workers who have verified they've been vaccinated and the date of verification,
 - Checking vaccination status each day as workers enter a jobsite, or
 - Marking a worker's badge or credential to show that they are vaccinated.
- More information: <https://www.lni.wa.gov/forms-publications/F414-179-000.pdf>

I'm not vaccinated, but I have had COVID.

Do I still need to wear a mask?

- Yes.
- The updated guidance only applies to vaccinated people.
- Immunity following a COVID-19 infection varies by person.
- While we do think there's immunity for *some* amount of time for *most* people after infection with SARS-CoV-2, we still don't know for sure how immunity works for this particular virus or how long it lasts.

ELIGIBLE NOW

**All people in Washington 12 years and older
are eligible for the COVID-19 vaccine**

Local COVID Vaccine Clinics this Week

www.tinyurl.com/PacCoClinics

Provider: Ilwaco Pharmacy (Johnson & Johnson)

Location: 117 Spruce Street E, Ilwaco, WA

First dose: June 8

Second dose: n/a

Vaccines for adolescents and children

- Children age 12+ can now get a Pfizer COVID-19 vaccination in Washington state.
- Currently Pfizer is the only COVID-19 vaccine authorized for people 12 years and older.
 - Moderna and Johnson & Johnson are authorized for people 18 years and older.
- Pfizer and Moderna are currently running trials among children age 6 months – 11 years and Johnson & Johnson is running trials among adolescents age 16-17.

Survey for parents

The Pacific County Health Department and our partners are developing a plan to ensure access to the Pfizer COVID vaccine for all parents who would like for their child to receive one. We are asking parent/guardians of youth 12-17 to complete the survey linked below to help inform our planning efforts. The information gathered will be kept confidential and will only be used for planning purposes.

Encuesta en español

Vacunación del COVID 19 para Padres de Jóvenes sobre la edad de 12 en el Condado del Pacifico

English

COVID Vaccination Survey for Parents of Youth 12-17 in Pacific County

<https://tinyurl.com/y9a29jab>

Based on the results of the survey, the Pacific County Health Department and/or a local provider will likely schedule community or school-based vaccination clinics for youth. More information will be shared

Myocarditis and Pericarditis Following mRNA COVID-19 Vaccination

- Since April 2021, there have been increased reports to the Vaccine Adverse Event Reporting System (VAERS) of cases of inflammation of the heart—called myocarditis and pericarditis—happening after mRNA COVID-19 vaccination (Pfizer and Moderna) in the United States.
- These reports are rare, given the number of vaccine doses administered, and have been reported after mRNA COVID-19 vaccination (Pfizer and Moderna), particularly in adolescents and young adults.
- CDC and its partners are actively monitoring these reports, by reviewing data and medical records, to learn more about what happened and to see if there is any relationship to COVID-19 vaccination.
- Most patients who received care responded well to medicine and rest and quickly felt better.

Vaccine Adverse Event Reporting System (VAERS)

- Established in 1990, the Vaccine Adverse Event Reporting System (VAERS) is a national early warning system to detect possible safety problems in U.S.-licensed vaccines.
- VAERS is co-managed by the Centers for Disease Control and Prevention (CDC) and the U.S. Food and Drug Administration (FDA).
- VAERS accepts and analyzes reports of adverse events (possible side effects) after a person has received a vaccination.
- Anyone can report an adverse event to VAERS. Healthcare professionals are required to report certain adverse events and vaccine manufacturers are required to report all adverse events that come to their attention.
- To report an adverse event following a vaccine:
<https://vaers.hhs.gov/index.html> or contact your healthcare provider

What happens if you no longer have your CDC vaccination card?

If you've misplaced or lost your card, don't worry! You can get official, verified proof of your COVID-19 vaccination online, for free. The MyIR website is an official state pathway to access proof of vaccination in Washington state. To get your copy, visit www.MyIRMobile.com or wa.MyIR.net to sign up for free. If you already have a MyIR account set up, you're all set!

**Please keep in mind that verification to your records through MyIR may not be immediate, and access is currently limited to English language only.*

For language assistance, or additional help getting your records, you may also call the Washington State Office of Immunization and Child Profile during regular business hours at 360-236-3595 or contact by email at waisrecords@doh.wa.gov.

Stay Connected

The Emergency Broadband Benefit Program -
Helping people stay connected during the
COVID-19 pandemic

- The Federal Communications Commission announced that on May 12, eligible households will be able to enroll through an approved provider or by visiting <https://getemergencybroadband.org>.
- The program will provide \$50 per month for broadband service (\$75 per month if households are on Tribal lands) and a one-time discount of up to \$100 for an internet-connected device.
- The program will run until it runs out of funds or 6 months after HHS declares an end to the COVID public health emergency, whichever is sooner.

Transportation survey

- There is still time to fill out the Transportation Survey!
- The Pacific County Transportation team has developed a transportation survey, as we know that lack of transportation can be a barrier in accessing services in Pacific County.
- We would like to get this survey to as many people as possible. Please complete and share with anyone in Pacific County. We will also have paper copies at different locations in the county.
- We really appreciate your support in this effort to improve community health in Pacific County. Link for survey <https://forms.gle/DQDmSwcUG4nbJXYg6>

Eviction Moratorium Ending

Purpose: a temporary moratorium on evictions to reduce housing instability was introduced in Washington State. The purpose, to enable residents to stay in their homes and promote public health and safety by reducing the progression of COVID-19 across the State. This has meant:

- Landlords, property owners, and property managers **are prohibited from seeking or enforcing judicial eviction orders.**
- Landlords, property owners, and property managers are prohibited from assessing **late fees for the non-payment or late payment of rent** where such non-payment or late payment occurred on or after February 29, 2020.
- Landlords, property owners, and property managers are prohibited from **treating any unpaid rent or other related charges as an enforceable debt or obligation that is owing or collectable**, where non-payment was as a result of the COVID-19 outbreak and occurred on or after February 29, 2020.

Unless the Governor issues an extension to this order, the Eviction Moratorium will end June 30th which will remove these protections.

Mortgage and Utility Assistance

This assistance aims to prevent people going into foreclosure

Do you qualify: is your household Income 80% Area Median Income (see below)?

What you may receive: payment of arrears only (not current mortgage or bills), maximum of \$5000.00, no more than 6 months in a row

Please fill in this [application form](#), or if you are unable to do this, call 360-214-9996

2021 Pacific County Area Median Income (AMI) Chart

Family Size	1	2	3	4	5	6	7	8
80% AMI	\$39,550	\$45,200	\$50,850	\$56,500	\$61,050	\$65,550	\$70,100	\$74,600

Rent and Utility Assistance

This assistance aims to prevent people being evicted

Do you qualify: is your household Income 80% Area Median Income (see below)?

What you may receive: households can receive up to 15 months of financial assistance. This can be a combination of rent & utility arrears, current rent and utility payments, future rent payments, other COVID housing costs

What you need to show: documents showing income for all household members, copy of your lease, copy of bills for payment. Please fill in this [application form](#) or if you are unable to do this, call 360-214-9996

Landlords may initiate a request for assistance. Please fill in this [application form](#)

2021 Pacific County Area Median Income (AMI) Chart

Family Size	1	2	3	4	5	6	7	8
80% AMI	\$39,550	\$45,200	\$50,850	\$56,500	\$61,050	\$65,550	\$70,100	\$74,600

Landlord Relief

Limited Landlord Relief Program is run by the Washington State Department of Commerce. It covers up to 80% of the rents owed from March 1, 2020. To qualify for this program the landlord must meet the following criteria: Make less than the area median income Pacific County, which is \$59,900

- Own four or fewer rental properties
- Be the sole owner of the rental property on the claim (spousal co-ownership is permitted)
- The property may not have a property manager/property management company overseeing it
