Cases per 100k per 14 days	374.3	455.8	697

Updated 8/17/2021

As of August 16, **71.5%*** of the population **12 and up** has received at least one dose.

*This percent includes aggregate data from the Department of Defense and Department of Veterans Affairs and is higher than the DOH data dashboard.

As of August 16, 71.5% of Washingtonians 12 and older have received at least one dose of COVID-19 vaccine. This number is higher than the DOH data dashboard because it includes state Immunization Information System (IIS) data, as well as aggregate data from the Department of Defense (DoD) and Veterans Affairs (VA)

If you haven't been vaccinated, visit [Vaccine Locator](#) or call 833-VAX-HELP to make your appointment today.

Pacific County Cases by Zip Code

- Confirmed case count is specific to each zip code.
- Represents permanent residence of Pacific County COVID-19 cases.
- Not a representation of where COVID-19 exposure or transmission occurred.

Updated 8/17/2021

- A new report released by Cowlitz County Health Department shows COVID-19 vaccination is significantly reducing the risk of hospitalization among residents in SW Washington.
- The analysis included residents of Cowlitz, Clark, Lewis, **Pacific**, Skamania and Wahkiakum counties who were hospitalized for COVID-19 from March 22 to June 27, 2021.
- The analysis found the risk of being hospitalized for COVID-19 was reduced by 90% for residents 65 years and older who were fully vaccinated. Of those 65 years and older who were partially vaccinated, the risk of being hospitalized was reduced by 75%.
