Pacific County Deaths: 48
New Pacific County Deaths this week: 4
Case rate per 100k/14 days: 1497

Pacific County Health Department in partnership with Timberland Regional Library and Shoalwater clinic are pleased to announce the Pacific County at-home COVID test kit program. This program is in addition to the Washington State (www.sayyescovidhometest.org) and the federal (www.covidtests.gov) at-home test kit programs and is limited to those who live or work in Pacific County. Beginning today, February 9th, individuals can pick up one test kit per household member at the locations listed below. Each kit contains 2 rapid COVID tests that people can administer themselves at home. We recommend everyone has a home kit on hand in case they develop symptoms of COVID-19 or in case they are exposed to someone who tests positive. For those testing due to exposure to COVID-19, it is best to wait until day 5 after exposure to ensure the most accurate test results. If individuals test positive on their at-home test kit, we encourage them to report their positive result here: <http://www.pacificcountycovid19.com/reporhometest.html>

Please note, if you are currently experiencing symptoms and need a test, call the front desk once you arrive and a staff member will bring the kit out to your car- do not enter the building if you are symptomatic.

Naselle Timberland Library

4 Parpala Rd.

Naselle

360-484-3877 (if you are experiencing symptoms, please call when you arrive and someone will bring a test out to your car)

Do I need a **BOOSTER?**

	Who's eligible?	When should I get a booster?	Which booster?
If you got... Pfizer	Everyone 12+ should get their booster dose.	At least 5 months after completing the primary series of Pfizer vaccine.	Adults 18+ can get a booster dose of any COVID-19 vaccines (Pfizer or Moderna preferred). Children 12-17 should get a Pfizer booster.
If you got... Moderna	Adults 18+ should get their booster dose.	At least 5 months after completing the primary series of Moderna vaccine.	A booster dose of any COVID-19 vaccines (Moderna or Pfizer preferred).
If you got... Johnson & Johnson	Adults 18+ should get their booster dose.	At least 2 months after completing the primary series of J&J vaccine.	A booster dose of any COVID-19 vaccines (Pfizer or Moderna vaccine is preferred over a J&J vaccine).

What to do if you are exposed to COVID:

<p>IF YOU were exposed to COVID-19 and are NOT up-to-date on COVID-19 vaccinations (including boosters if eligible)</p>	<p>Quarantine for at least 5 days</p> <ul style="list-style-type: none"> Stay home for at least 5 full days. <p>Get tested</p> <ul style="list-style-type: none"> Get tested at least 5 days after close contact with someone with COVID-19. If you can't get a test and have symptoms, assume you are positive and isolate. <p>Take precautions until Day 10</p> <ul style="list-style-type: none"> Wear a quality mask for 10 days while around others. <p>Avoid travel</p> <p>Avoid being around people who are high risk</p>
<p>IF YOU were exposed to COVID and you are up-to-date on COVID vaccinations</p>	<p>No Quarantine</p> <ul style="list-style-type: none"> You do not need to stay home unless you develop symptoms. <p>Take precautions until Day 10</p> <ul style="list-style-type: none"> Wear a quality mask for 10 days when around others. Get tested if you develop symptoms, or assume you are positive and isolate for 5 days. <p>Avoid travel</p> <p>Avoid being around people who are high risk</p>
<p>IF YOU were exposed and had confirmed COVID within the past 90 days</p>	<p>No Quarantine</p> <ul style="list-style-type: none"> You do not need to quarantine unless you develop symptoms. <p>Take precautions until Day 10</p> <ul style="list-style-type: none"> Take precautions until Day 10. Wear a mask for 10 days when around others. If you develop symptoms, assume you are positive and isolate for 5 days. <p>Avoid travel</p> <p>Avoid being around people who are high risk</p>

What to do if you test positive:

For non-tested: If you are symptomatic or have been exposed to COVID and unable to get a test, please assume you are positive as follows the advice below.

<p>Isolate at home, away from others.</p> <ul style="list-style-type: none"> Isolate at least 5 days OR 24 hours after symptoms improve and no fever without fever-reducing medicine, WHICHEVER IS LONGER. Day 1 of your isolation period begins the first full day after symptoms start. Continue to wear a quality mask while around others until day 10.
<p>Reach out to your close contacts and let them know they've been exposed and they should quarantine.</p> <ul style="list-style-type: none"> Quarantine for a minimum of 5 days from the last date of exposure. If no symptoms by day 5, quarantine can end but continue to wear a face covering and monitor for symptoms until day 10. If symptoms develop, get tested. If unable to test, assume you are positive & isolate. Close contacts include anyone you were around who is not fully vaccinated for more than 15 minutes while you were infectious (2 days prior to when symptoms started).
<p>Wear a mask while inside and ask others in your home to do the same (preferably a KN95, KF-94, or a 3-ply surgical mask, if possible)</p>
<p>Ventilate your space as much as you can.</p> <ul style="list-style-type: none"> If your home has an HVAC system, make sure it has a fresh filter. Consider using a HEPA air purifier if you don't have HVAC. Open the windows and doors whenever possible and safe to do so. Use fans to move virus particles from inside your home to outside.
<p>Stay hydrated, use OTC medications such as acetaminophen to manage symptoms. Seek medical care if you display the following symptoms:</p> <ul style="list-style-type: none"> Trouble breathing. Persistent pain or pressure in the chest. Confusion, inability to wake or stay awake. Pale, gray, or blue-colored skin, lips, or nail beds (or an abnormally low reading on a pulse oximeter, if you have one). <p><small>*This list is not all possible symptoms. Call your medical provider if you have any other severe or concerning symptoms.</small></p>
<p>More information at: www.pacificcountycovid19.com</p>

COVID-19 Home Testing

When to use your COVID-19 At Home Test :

- If you have COVID-19 symptoms, like a fever or cough, test right away.
- If you were a close contact of someone with COVID-19, wait at least 5 days to test.
- If you are testing before a gathering, test right before the gathering, or as close to the event as possible.

Please read the test instructions or watch the video below.
https://www.youtube.com/watch?v=qBt_H4Gc-rU

Reporting your positive results:

*Do not report negative results.

While we don't require individuals to report their at-home COVID-19 test results, we highly recommend people to do so, and to let close contacts know about potential exposure. Your honest responses help us understand how the virus is affecting you and your community.

Options to report an at home test:

- **Report online using the QR code or directly at:**
www.pacificcountycovid19.com/reporhometest
- **Call us at: (360) 875-9407**

Use WA Notify to alert other users that they may have been exposed.

<https://www.doh.wa.gov/Emergencies/COVID19/WANotify>

Getting a COVID-19 vaccine after you recover from COVID-19 infection provides added protection for your immune system. You are eligible to receive a COVID-19 vaccine (or booster) once you have fully recovered from your COVID-19 infection. Schedule an appointment at:

www.pacificcountycovid19.com/get-vaccinated

Have more questions? Call us at (360) 875-9407 or visit:
www.pacificcountycovid19.com

Pruebas de hogar para el COVID-19

Cuando usar la prueba de detección de COVID-19 para el hogar:

- Cuando tenga síntomas del COVID-19, como fiebre o tos, hágase la prueba de inmediato.
- Cuando tenga contacto cercano con una persona que este positivo para el COVID-19, espere al menos 5 días para realizarse la prueba.
- Cuando se realice la prueba para una reunión, hágase la prueba antes del evento, o lo mas cerca al evento.

Por favor lea las instrucciones para la realizarse la prueba o vea el video siguiente
<https://www.youtube.com/watch?v=yGbwl7uFPvY>

Como reportar un resultado positivo de COVID-19:

*No reporte un resultado negativo.

Aunque no es un requisito reportar su resultado positivo de COVID-19 de una prueba hecha en casa, es recomendado que lo haga, y de hacerle saber a sus contactos cercanos de una posible exposición. Una respuesta honesta de su parte nos ayuda a entender como lo afecta el virus y como afecta a la comunidad.

Opciones para reportar una prueba de casa:

- **Repórtelo en línea usando el código de QR o directamente en:**
www.pacificcountycovid19.com/reporhometest
- **Llámenos al: (360) 875-9407**

Use Notifica WA para alertar a otros usuarios sobre una posible exposición.

<https://www.doh.wa.gov/Emergencies/COVID19/WANotify/Spanish>

Después de su infección de COVID-19 póngase la vacuna para proteger aún más su sistema inmunológico. Usted es elegible para recibir una vacuna del COVID-19 (o vacuna de refuerzo) cuando este recuperado de su infección de COVID-19.

Haga una cita en:

www.pacificcountycovid19.com/get-vaccinated

¿Si tiene preguntas? Llámenos al (360) 875-9407 o visite:
www.pacificcountycovid19.com
